## About

The International Medical University is an innovative educational and research higher education institution that has an international status and has passed independent accreditation for the accreditation of educational institutes and programs "SAPATTUU" BILIM". The International Medical University is included in the directory of the World Health Organization, as well as in the list of the educational commission for foreign graduates of medical universities in the United States. Diplomas of our university are recognized in the CIS countries, India, Pakistan, the USA and Canada. As of 01.07.2021, 1846 students study at MMU, of which 1520 are students from foreign countries and 326 students from the CIS and Kyrgyz countries.

## MBBS Studies in Kyrgyzstan

Universities in Kyrgyzstan are recognized and approved by organizations like WHO, IMED, MCI, FAIMER and other. So, due to high recognition and approval by the universities, the degree is recognized all over the world which makes it easier for the students to get a place anywhere across the Globe. This recognition holds immense significance for students, as it empowers them with a global advantage. Graduates from Kyrgyzstan's universities can confidently pursue their career aspirations anywhere in the world, as their degrees are widely recognized and respected by employers, professional bodies, and academic institutions internationally. The high recognition not only opens doors to diverse employment opportunities but also facilitates further education, research collaborations, and professional development on a global scale.

## About Bishkek

It is the capital and the largest city of Kyrgyzstan. It has a population of about 1 million and it covers approx. 169.9 km. It is located in the Chu river valley near the Kyrgyz mountains at an elevation of approx 3000 feet. The climate in Bishkek is of cold and temperate type. It mostly experiences rain in winter while comparatively less rain in summer. The average annual temperature is 10.4 °C.

## Message From the Rector

It is with great pleasure and a profound sense of responsibility that I address you today as the Director of this esteemed institution, the International Medical University (IMU). As we embark on a new academic year filled with limitless possibilities, I would like to extend a warm welcome to our returning students and a heartfelt greeting to our new members who have joined our IMU family.

At IMU, our primary goal is to provide you with the highest quality of education and create an environment that fosters personal and professional growth. We believe that each of you has the potential to become outstanding healthcare professionals, leaders, and catalysts for change. Our commitment to your success goes beyond academic excellence. We strive to nurture compassionate individuals with strong moral values who are dedicated to serving humanity with integrity and empathy.

As the Director of IMU, my door is always open to you. I am here to listen, understand, and work together to make IMU an even better place for learning, growth, and discovery. Let us embrace the challenges and opportunities that lie ahead with enthusiasm and determination.

# Details of MBBS (Bachelor of Medicine and Bachelor of Surgery) program

IMU strictly follows the MCI approved MBBS curriculum to keep its medical students at par with the students studying MBBS in India. It has followed the same scheme of medical education as prevalent in other medical universities in India. The complete curriculum is divided into 3 phases:

**01**

Pre-Clinical Phase  
Two Semesters (1-2)

**02**

Para-Clinical Phase  
Three Semesters (3-5)

**03**

Clinical Phase  
Four Semesters (6-9)

The major subjects to study during the course duration are as follows:

- |  |                               |
|--|-------------------------------|
| <b>01</b> Anatomy                        | <b>10</b> Orthopedics         |
| <b>02</b> Dermatology & Venereology      | <b>11</b> Pathology           |
| <b>03</b> Biochemistry                   | <b>12</b> Otorhinolaryngology |
| <b>04</b> Medicine                       | <b>13</b> Pharmacology        |
| <b>05</b> Physiology                     | <b>14</b> Pediatrics          |
| <b>06</b> Obstetrics & Gynecology        | <b>15</b> Anesthesiology      |
| <b>07</b> Forensic Medicine & Toxicology | <b>16</b> Community Medicine  |
| <b>08</b> Ophthalmology                  | <b>17</b> Psychiatry          |
| <b>09</b> Microbiology                   | <b>18</b> Surgery             |

## About IMU

The International Medical University (abbreviated name according to the Charter of the University – IMU) is a rapidly developing innovative educational and research institution, an academic center that participates in the social development of the Kyrgyz Republic. Today, the International Medical University is a relatively young university in the Kyrgyz Republic, with 3 faculties, 1 college, 1 school, Avicenna Medical Clinic, a research center, “Santa–Den Sooluk” television studio and a contingent of 1,000 students from across the country and Eurasian continent. The infrastructure of the IMU in the form of a campus is located in a large area of the city of Bishkek and has all the necessary conditions for training.

IMU in its activities is focused on the satisfaction of personnel demands of medicine, science, and society. The training of specialists for such strategic sectors of the Kyrgyz Republic, as well as research with the ability to innovate and create high medical technologies has begun. A multi–level education system is implemented at the International Medical University, allowing the realization of the principle of lifelong education: preuniversity training (school).

## Special Features of IMU

### Eligibility Criteria:

The students will have to fulfill the below criteria to get into any of the Top Medical Universities in Kyrgyzstan:

01. The student should complete 17 years of age in the year of admission.
02. The student should qualify the 12th class (HSC) exam from Science and must secure A minimum of 60% marks in Physics, Chemistry, and Biology.

### Clinical Rotation in Indian Hospitals

Recognizing the significance of climate and region-specific diseases, IMU emphasizes the importance of gaining clinical exposure in the desired country of medical practice. Understanding prevalent diseases and adopting standardized medical approaches are essential. To facilitate practical, hands-on experience and familiarize students with the medical challenges specific to India, IMU offers a two-month clinical rotation in esteemed Indian hospitals. IMU is dedicated to providing its students with the finest opportunities available.

## Specialized preparation for NEXT Exam (Former FMGE)

With the implementation of the NEXT exam for both foreign and Indian medical graduates, IMU ensures a level playing field. The university prioritizes the preparation of its medical graduates for the NEXT exam and offers specialized on-campus classes dedicated to this purpose. IMU goes beyond providing medical education by providing comprehensive support and guidance to its students, paving the way for a promising and successful future.

## Affordable Fee Structure:

If we talk about the fee structure that the medical universities in Kyrgyzstan offer, the fees for MBBS Course which are somehow lesser than fee structure of many other countries like Russia, China. So, Kyrgyzstan provides a high-value degree at a very affordable fee structure.

## Well Equipped University with Latest Technology:

The universities are very well equipped with the latest technologies and methods to ensure the comfort and understanding of the students. With a beautiful and spacious infrastructure, there is the availability of the latest equipment and instruments.

## Medical Pedagogy

The art of teaching and learning, known as pedagogy, has evolved over time, transitioning from ancient methods like stone and papyrus to modern tools like blackboards and multimedia. IMU embraces cutting-edge technology such as 3D lectures and augmented reality, offering students an immersive and transformative learning experience that enhances comprehension and facilitates easy understanding.

## English Language as the Medium of Instruction:

The medium of instruction and communication offered is completely English which makes it easier especially to Indian students and others also. So, If you are choosing your Kyrgyzstan to study MBBS in Kyrgyzstan Cost of Living in Kyrgyzstan.

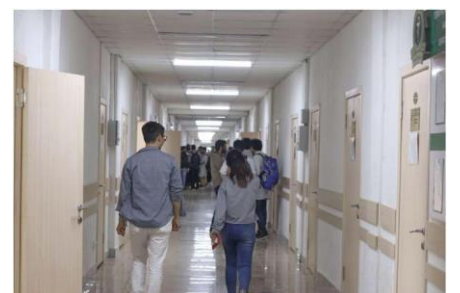

### Cost of Living in Kyrgyzstan:

The cost of living in Kyrgyzstan is very low if we compare it with countries like Russia, China, Georgia, etc. Other expenses like Travel are also very low in comparison with these countries. So, if you are choosing Kyrgyzstan as your destination to study MBBS Abroad, you can maintain a high standard of living with less expense.

### MCI & WHO Approved :

The Universities in Kyrgyzstan are recognized and approved by organizations like WHO, IMED, MCI, FAIMER and other. So, due to high recognition and approval by the universities, the degree is recognized all over the world which makes it easier for the students to get a place anywhere across the Globe.

# Student Life & Hostel

## India–Kyrgyzstan Relations

An Agreement on Cooperation in the spheres of culture, was recently signed during the visit of PM Modi in July 2015 to replace the agreement on Culture, arts, education, science, mass-media and sports of 18 March 1992. In general, there is appreciation of Indian culture. The Centre for Indian Studies set up in Osh State University in 1997 has been useful in providing an exposure to Indian culture and civilization to academicians and intelligentsia in this country. The chair has been discontinued since 2010 unrest in Osh. An India Study Centre was established by the Mission in the prestigious National Library of Kyrgyzstan in Bishkek and inaugurated on 14 November 2014. Visit of Hon'ble Prime Minister H.E. Mr. Narendra Modi on 13-Jun-2019 in Inauguration of Tele-medicine which bring more strong ties of both the countries in the field of medical

## Our Mess (indian)

The kitchen facilities at IMU are available for students to prepare their own meals, fostering independence. However, during the first year, all international students are required to participate in the mess facility. The charges for meals may vary based on the selected options, but typically, a standard Indian meal plan consisting of lunch and dinner costs \$120 per month, while a plan including breakfast, lunch, and dinner amounts to \$200 per month. The hostel provides timely and nutritious meals, with breakfast, lunch, and dinner served at specified hours. The menu is regularly updated based on student feedback and the availability of seasonal vegetables. We firmly believe that a healthy body nurtures a healthy soul, emphasizing the importance of maintaining overall well-being.
